## FM0-64L-S6E1C3 FM0+ S6E1C-Series Starter Kit

Release Date: March 3, 2016

Thank you for your interest in the FM0-64L-S6E1C3 FM0+ S6E1C-Series Starter Kit. This document lists kit content, installation requirements, limitations, and known issues with the kit.

### Kit Contents

The FM0+ S6E1C-Series Starter Kit includes the following:

- FM0+ S6E1C-Series Starter board
- USB Standard-A to Micro-B cable
- Quick Start Guide

### Installation

Download the **FM0+ S6E1C-Series Starter Kit Complete Setup** package from the kit webpage [www.cypress.com/FM0-64L-S6E1C3](http://www.cypress.com/FM0-64L-S6E1C3). Launch the EXE file and follow the steps in the installer window to install the software required.

### Kit Revision

This is the revision \*\* of the FM0+ S6E1C-Series Starter Kit.

### Required IDE Tools

The example projects shipped with this kit require IAR Embedded Workbench v7.40.5. 9739 (or later) or Keil uVision IDE v5.16a (or later).

### Limitations and Known Issues

When users un-install and install the USBVCOM driver repeatedly, the driver enumeration may fail prompting that "The specified service has been marked for deletion". Reboot the PC to recover from this issue, and run the installer again.

### Documentation

The kit documents are also located in the Documentation folder in the installation directory. The default location for the kit documents is:

<Install\_Directory>:\FM0+ S6E1C-Series Starter Kit\<version>\Documentation

Documents include:

- *FM0-64L-S6E1C3\_Kit\_Guide.pdf*
- *FM0-64L-S6E1C3\_Quick\_Start\_Guide.pdf*
- *FM0-64L-S6E1C3\_Release\_Notes.pdf*

## Technical Support

For assistance, go to [www.cypress.com/support](http://www.cypress.com/support) or contact our customer support at +1 (800) 541-4736 Ext. 2 (in the USA), or +1 (408) 943-2600 Ext. 2 (International).

## Additional Information

Download the latest version of IDE from [www.iar.com](http://www.iar.com) or [www.keil.com](http://www.keil.com).

Visit FM0+ web page: <http://www.cypress.com/products/cypress-fm0-family-32-bit-arm-cortex-m0-microcontrollers> to know about FM0+ functionality and releases.

#### **Flash Code Protection**

Cypress products meet the specifications contained in their particular Cypress PSoC datasheets. Cypress believes that its family of PSoC products is one of the most secure families of its kind on the market today, regardless of how they are used. There may be methods, unknown to Cypress that can breach the code protection features. Any of these methods, to our knowledge, would be dishonest and possibly illegal. Neither Cypress nor any other semiconductor manufacturer can guarantee the security of their code. Code protection does not mean that we are guaranteeing the product as "unbreakable." Cypress is willing to work with the customer who is concerned about the integrity of their code. Code protection is constantly evolving. We at Cypress are committed to continuously improving the code protection features of our products.
