Cypress BLE-Beacon PC Release Notes
Version 1.2
Release Date: April 6, 2017

Thank you for your interest in the Cypress BLE-Beacon PC 1.2 application. Cypress BLE-Beacon PC 1.2 is a minor release that adds support for Eddystone-UID/URL/TLM frame.

Cypress BLE-Beacon PC is a set of Bluetooth® Low Energy (BLE) utilities developed by Cypress. These utilities can be used to receive BLE advertising packets, including temperature and humidity from the devices described in the Supported Devices, Kits, and Software section and display it to users.

The Cypress BLE-Beacon PC user guide can be downloaded from www.cypress.com/CypressBLE-Beacon-PC.
