CY8CKIT-148 PSoC® 4700S Inductive Sensing Evaluation Kit Release Notes
Release Date: March 11, 2019

Thank you for your interest in the CY8CKIT-148 PSoC® 4700S Inductive Sensing Evaluation Kit. This document lists kit contents, installation requirements, kit documentation, limitations, and known issues.

Kit Contents
The CY8CKIT-148 PSoC 4700S Inductive Sensing Evaluation Kit includes the following:

- CY8CKIT-148 PSoC 4700S Inductive Sensing Evaluation board
- Metal target
- USB Type-A to Type-C cable
- Quick Start Guide

Software and Tools
The code examples shipped with this kit require PSoC Creator™ 4.2 or later. This is available with the kit installer or on the PSoC Creator webpage (www.cypress.com/psoccreator).

PSoC Programmer 3.27.1 or later and KitProg2 v1.05 or later are required to program the PSoC 4700S device on the PSoC 4700S Inductive Sensing Evaluation Kit. PSoC Creator installer or the kit installer automatically installs PSoC Programmer and KitProg2 drivers.

Install the PSoC 4700S device and the latest MagSense™ component using PSoC Creator 4.2 or later. For more information, refer to the kit guide.

Code Examples and Kit Collateral
The CY8CKIT-148 PSoC 4700S Inductive Sensing Evaluation Kit webpage includes the kit installation packages, DVD image (ISO), and setup files (EXE) to install the code examples, documents, and hardware files of this kit.

Installation
Installation instructions are provided in the CY8CKIT-148 PSoC 4700S Inductive Sensing Evaluation Kit Guide, which is available at www.cypress.com/CY8CKIT-148.

Kit Revision
This is Rev. *B of the CY8CKIT-148 PSoC 4700S Inductive Sensing Evaluation Kit. The code example shipped with the kit is updated to make touch detection over metal overlays more robust.

Limitations and Known Issues
The following are the limitations and known issues in this revision of CY8CKIT-148 PSoC 4700S Inductive Sensing Evaluation Kit.

- **Issue:** In the CMSIS-DAP programming mode, this kit enumerates as a Mass Storage programmer; however, programming the PSoC 4700S device in Mass Storage mode is not supported.

  **Workaround:** Use the CMSIS-DAP mode for program and debug operation.
For limitations and known issues with the PSoC 4700S silicon, refer to the PSoC 4700S datasheet.

**Documentation**

The kit documents are located in the Documentation folder, in the installation directory. The default location for the kit documents is:

\<Install_Directory\>\CY8CKIT-148 PSoC 4700S Inductive Sensing Evaluation Kit\<version\>\Documentation

Documents include:

- CY8CKIT-148_Kit_Guide.pdf
- CY8CKIT-148_Quick_Start_Guide.pdf
- CY8CKIT-148_Release_Notes.pdf

After opening PSoC Creator, on the Start Page, select **Start > Kits > CY8CKIT-148** for links to the kit documentation on the right panel. Expand **CY8CKIT-148** for kit code examples.

Additional tool and device documentation is available in **Help > Documentation**.

**Technical Support**

For assistance, go to [www.cypress.com/support](http://www.cypress.com/support) or contact our customer support at +1 (800) 541-4736 Ext. 3 (in the USA), or +1 (408) 943-2600 Ext. 3 (International).

**Additional Information**

- For more information about PSoC Creator functionality and releases, visit the PSoC Creator webpage: [www.cypress.com/psoccreator](http://www.cypress.com/psoccreator)
- For more information about PSoC Programmer and supported hardware, visit the PSoC Programmer webpage: [www.cypress.com/psocprogrammer](http://www.cypress.com/psocprogrammer)
- For a list of trainings on PSoC Creator, visit [www.cypress.com/training](http://www.cypress.com/training)

This document, including any software or firmware included or referenced in this document (“Software”), is owned by Cypress under the intellectual property laws and treaties of the United States and other countries worldwide. Cypress reserves all rights under such laws and treaties and does not, except as specifically stated in this paragraph, grant any license under its patents, copyrights, trademarks, or other intellectual property rights. If the Software is not accompanied by a license agreement and you do not otherwise have a written agreement with Cypress governing the use of the Software, then Cypress hereby grants you a personal, non-exclusive, nontransferable license (without the right to sublicense) (1) under its copyright rights in the Software (a) for Software provided in source code form, to modify and reproduce the Software solely for use with Cypress hardware products, only internally within your organization, and (b) to distribute the Software in binary code form externally to end users (either directly or indirectly through resellers and distributors), solely for use on Cypress hardware product units, and (2) under those claims of Cypress’s patents that are infringed by the Software (as provided by Cypress, unmodified) to make, use, distribute, and import the Software solely for use with Cypress hardware products. Any other use, reproduction, modification, translation, or compilation of the Software is prohibited.

TO THE EXTENT PERMITTED BY APPLICABLE LAW, CYPRESS MAKES NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, WITH REGARD TO THIS DOCUMENT OR ANY SOFTWARE OR ACCOMPANYING HARDWARE, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. No computing device can be absolutely secure. Therefore, despite security measures implemented in Cypress hardware or software products, Cypress shall have no liability arising out of any security breach, such as unauthorized access to or use of a Cypress product. CYPRESS DOES NOT REPRESENT, WARRANT, OR GUARANTEE THAT CYPRESS PRODUCTS, OR SYSTEMS CREATED USING CYPRESS PRODUCTS, WILL BE FREE FROM CORRUPTION, ATTACK, VIRUSES, INTERFERENCE, HACKING, DATA LOSS OR THEFT, OR OTHER SECURITY INTRUSION (collectively, “Security Breach”). Cypress disclaims any liability relating to any Security Breach, and you shall and hereby do release Cypress from any claim, damage, or other liability arising from any Security Breach. In addition, the products described in these materials may contain design defects or errors known as errata which may cause the product to deviate from published specifications. To the extent permitted by applicable law, Cypress reserves the right to make changes to this document without further notice. Cypress does not assume any liability arising out of the application or use of any product or circuit described in this document. Any information provided in this document, including any sample design information or programming code, is provided only for reference purposes. It is the responsibility of the user of this document to properly design, program, and test the functionality and safety of any application made of this information and any resulting product. “High-Risk Device” means any device or system whose failure could cause personal injury, death, or property damage. Examples of High-Risk Devices are weapons, nuclear installations, surgical implants, and other medical devices. “Critical Component” means any component of a High-Risk Device whose failure to perform can be reasonably expected to cause, directly or indirectly, the failure of the High-Risk Device, or to affect its safety or effectiveness. Cypress is not liable, in whole or in part, and you shall and hereby do release Cypress from any claim, damage, or other liability arising from any use of a Cypress product as a Critical Component in a High-Risk Device. You shall indemnify and hold Cypress, its directors, officers, employees, agents, affiliates, distributors, and assigns harmless from and against all claims, costs, damages, and expenses, arising out of any claim, including claims for product liability, personal injury or death, or property damage arising from any use of a Cypress product as a Critical Component in a High-Risk Device. Cypress products are not intended or authorized for use as a Critical Component in any High-Risk Device except to the limited extent that (i) Cypress’s published data sheet for the product explicitly states Cypress has qualified the product for use in a specific High-Risk Device, or (ii) Cypress has given you advance written authorization to use the product as a Critical Component in the specific High-Risk Device and you have signed a separate indemnification agreement.
