Description of change:

Cypress Semiconductor completed the acquisition of Lara Networks on July 10, 2001. Beginning with devices assembled in September of 2001 the marking format is being changed from the Lara Networks format to the standard Cypress marking format. The change to the device is limited to only part marking, and therefore the Cypress-Lara devices are form, fit and functionality identical.

From October on, you may receive devices with either the Cypress or Lara marking. Both part numbers will be available for Order Entry in the Cypress system for a limited time period. Orders can continue to be placed on the Lara part number until otherwise noted by Cypress Sales. Estimated dates for this closure of the Lara part number is December 2001.
