CYPRESS part numbers affected:

The current list of discontinued part numbers is attached. The CS and CG part numbers are numbers that are assigned for custom processing and apply to specific customers only. This list is also available on the Cypress Semiconductor Web site.

www.cypress.com

In addition the PALC20 series is being discontinued, and replaced by PALCE16V8 product. Cypress marketing and applications groups have prepared a conversion table to assist our customers in converting the PALC20 series to PALCE16V8 product. This conversion memo is attached. If you need additional information please contact your local sales office.

In this current cycle, several military SMD part numbers have been designated to be discontinued that were previously identified as preferred parts on the military product selector guide. We intend to provide a functionally equivalent product to support those devices for the remainder of the PPL duration. If you are using any of the SMD devices on table I and will require product beyond the last time buy date, please contact your local sales office.

Regards
Regina Morgan
Business Process Manager
